

## Tripod Stand WM1600/2000 (IS12 Series)

### Features

- Aluminium Construction
- Finish = Black
- Fasteners = Stainless Steel
- Weight = 5kg
- Load Capacity = 50kg
- Base = 980mm Dia
- Max Height = 1960mm
- 3 x Guy wires for stability

The IS12 Tripod stand comes complete with all the necessary equipment to erect your WeatherMaster in Minutes.

All instructions, ground pegs, guy wires, attachments and fasteners are provided with the stand. All you need supply is a small shifting spanner.

The complete package only weighs 5kgs so it is easy to move from location to location. (It is not recommended that the weather station stay attached during transport.)

The top attachment has a Leveling mechanism which means the ground need not be completely level to begin with.
